Problem Statements Defining

Insights

03

Differnent Kinds of Needs.

Methodology

02

Methodology of Research , Survey link , Responses .

Web UI

04

Soution Protoype, Interface, Resources.

PART ONE

Problem Statement

A problem statement is a concise description of the problem or issues a project seeks to address. The problem statement identifies the current state, the desired future state and any gaps between the two.

Problem Statement

➤ Students are struggling to find previous question papers for reference. All the question papers are scattered and most of them are totally absent.

An easy way to navigate through all the question paers and making students easy to search through all the papers without hassle.

The library of question papers should not be confined to one year or semester. All the year question paper must be easy to access.

PART TWO

Methodology of Research

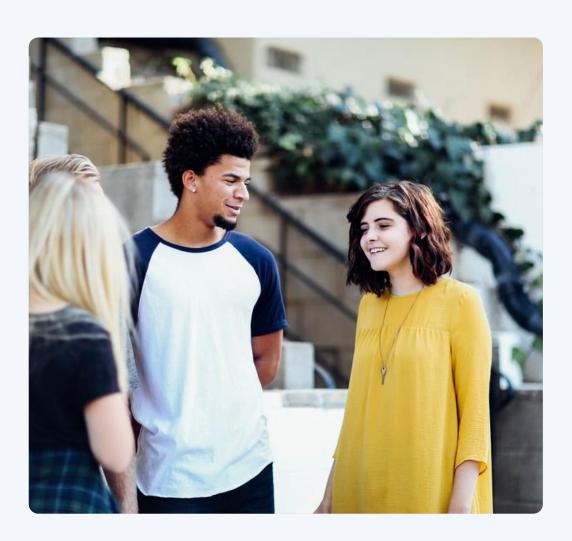

Research methodology simply refers to the practical "how" of any given piece of research. More specifically, it's about how a researcher systematically designs a study to ensure valid and reliable results that address the research aims and objectives.

Methodology of Research

■ A survey has been conducted among students to know the problems they are facing in procuring QP's.

After analyzing the survey record,many students feel that a platform where students and faculty would interact will be a better option to get good guidance and support from them in various phases of their college life.

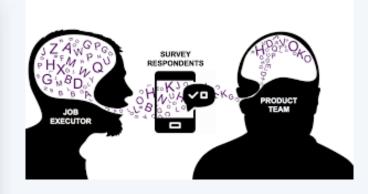

Questions Asked in the Survey form

Section 1

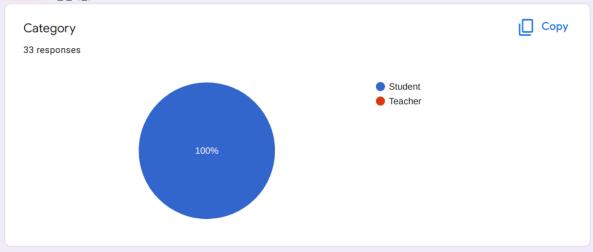

- Name
- Category
- Do you feel Prev.Quesion papers are useful and you can benift from them?
- Do you frequently refer Previous Year Question Papers ?

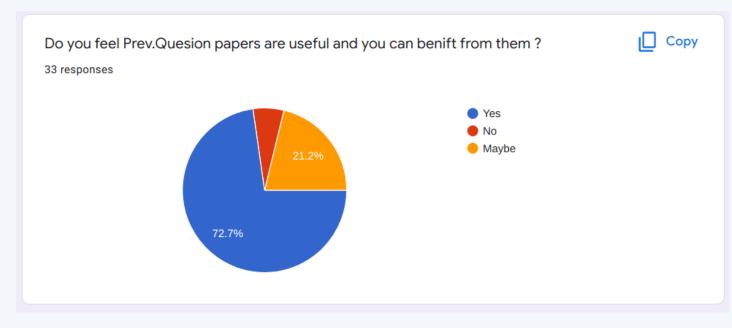

Section 2

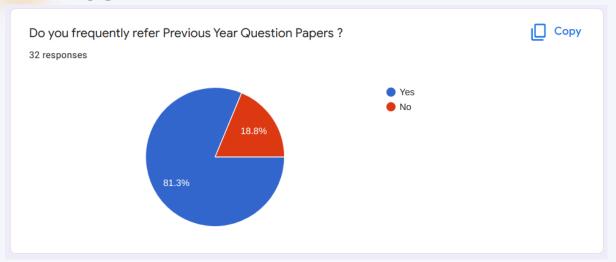

- Do you feel any difficulty in finding Prev.Question Papers?
- What is/are your Soucre of finding this Material ?
- What do feel about the Quality of Material you get ?(Rating : 1 to 5)
- Will it be comfortable to find all the papers at one place?
- Feel Free to Share Your Experience regarding Previous Question Papers

Feel Free to Share Your Experience regarding Previous Question Papers

4 responses

Its Really Hard to find Every Question paper for Every Subject of Reliable Quality

It will be useful if we get as per our regulation, college E library has outdated paper not updated one.

these Questions Repeat , Everyone knows that , it is a good plan to refer them

Pass

Persona

☐ Students and Tutors are the users who are benefited from the proposed solution.

Students

Students are the users who are benifited from the website

- **❖** It helps to understand the important parts of the syllabus.
- **!** It Increases the confidence of the candidates
- It help to manage the time.
- It Helps to chalk out the similar questions.
- **!** It helps the student to plan his examination.

Tutors

- **❖** Tutors can create a post to share any material which can reach to students of all branches.
- Helps with Version control and sampling
- Makes Planning Easier

PART THREE

Insights

A problem statement is a concise description of the problem or issues a project seeks to address. The problem statement identifies the current state, the desired future state and any gaps between the two.

- ➤ Tutors can share knowledge over various platforms other than classroom
- > Easy for students to collect and use material.
- Students can easily get all materupdates material needed at one place

Primary Needs

Any need of the customers which is short term and is easily available is known as primaru need.

Secondary Needs

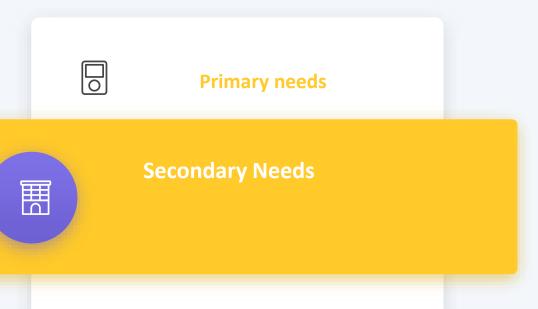

Latent Needs

Can show ways, share ideas and make students more active.

- >Students need not waste their time in searching for the Reliable Material.
- >When all the shared information by Tutor is grouped at one place can make it as a help which a faculty can use further.

Seondary needs

Latent Needs

Latent needs can be defined as a desire or preference which cannot be satisfied due to a lack of information or availability of a product or service. Or, in plain English, a latent need is a problem that a user or consumer doesn't realise they have.

PART FOUR

DEMONSTRATE

SERVICE EXPERINCE CYCLE

❖ PAIN POINTS TO THE USER GROUP

They are confused due to

Many Versions (regulation)

Feeling discomfort : need to collect from material from differnet soucres

Time Waste and was not getting

Quality Material

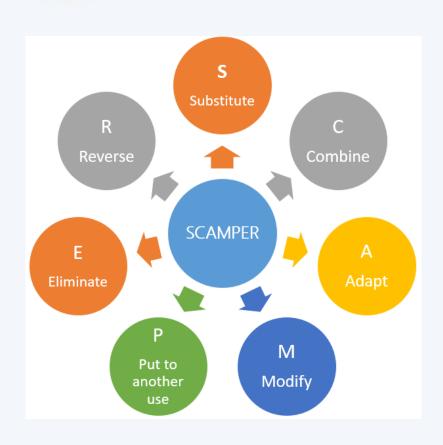

SERVICE EXPERINCE CYCLE

***** GAIN EXPECTED OUT OF THE SOLUTION:

- ☐ Leaners Can Acess Useful Material Easily .
- ☐ Saves Time as all the Regired Content is at the same place
- ☐ Version can be managed with ease as lot of support is available through users

IDEATION METHOD-SCAMPER

SUBSTITUTE:

- In traditional ways, when students need a necessary material, they try to approach their friends, known faculty.
- They invest some time in finding the right material for help and it takes some time in finding.
- So, when both students and tutors are bought under one platform we can eliminate all the difficulties which students are facing.

COMBINE:

- Generally, knowledge shared by the faculties is limited to a class or group of students. Knowledge is to be shared without boundaries.
- Students are in path of building their career.
- When these two users are both under one roof creates benefits at great extent.

IDEATION

ADAPT

> We would like to get a way where students are getting proper material in all cases and build an environment to develop a sense of ease.

MODIFY

> We are trying to change the way of providing useful and necessary data to both tutors and students .

PUT TO OTHER USE

> In mean time, It helps in developing a college community like culture.

ELIMINATE

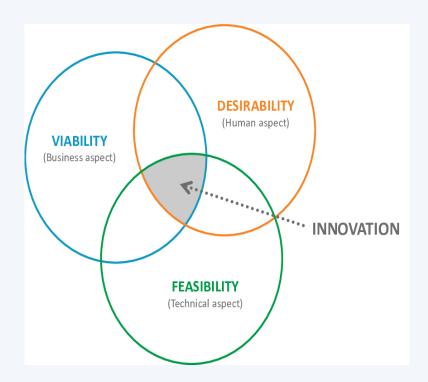

> We would like to eliminate the problems in knowledge sharing process.

REVERSE

> Knowledge sharing has no limits. Knowledge sharing can be like two-way handshaking. So, students can also share knowledge and contribute to the community.

FINAL REAL-WIN-WORTH

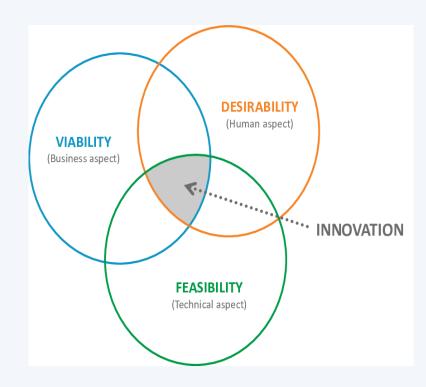

- > Our Website is user friendly.
- > Our Website is Responsive (i.e. Compatabile with Mobile and DesItop
- > Students can get interest in accessing website to get connected.
- > It is desirable as it servers the purpose without making things complex.

FINAL REAL-WIN-WORTH

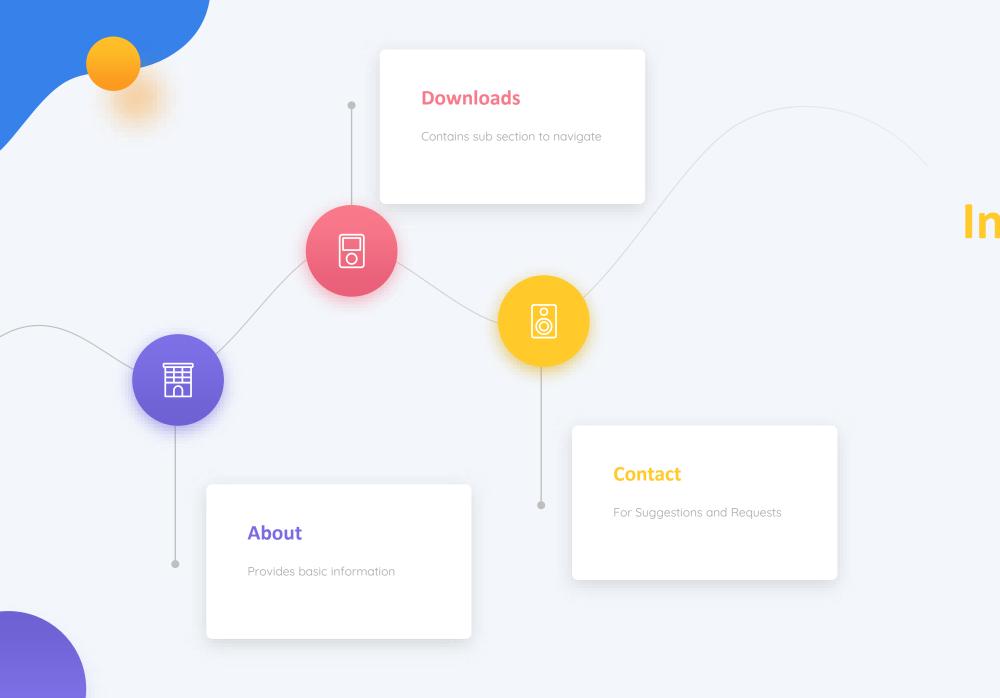

VIABILITY AND FEASEBILITY:

- > This Web app is built using front end technologies like HTML Bootstrap, JQuery, CSS.
- > Google Drive makes it more easy and No-Cost
- > Website light and creates a best user interface with magnificent UI.
- > Technically it is feasible and simple to implement.
- > This solution is economically feasible as well.
- > Time taken to build the web app is considerate and not long.

Design for Environment

- ➤Our solution is sustainable, it is easy to maintain in the long run.
- >It being a software will not wear out with time.
- Any bugs identified in the process can be rectified and the software can be deployed again.
